MGTD Pirii is a training organisation that offers clients and stakeholders many options for learning and assessment. All fees have been negotiated to give good value to all training packages whether it is ELearning/Online learning packages, Workbook and Distance packages, Face 2 Face course work or Qualification conversions.

All training packages include a registration and administration fee (15% of fees paid) which is non-refundable due to the processes necessary to set up a student. Course fees may have a pay as you go arrangement, so the student will be able to manage the cost. The cost of the course may also include materials, workbooks and guides which will help the student to complete the qualification.

Students fees are payable prior to starting a course and must be received by either credit card or electronic funds transfer. Once payment is finalised then students will received a personalised log in to the system.

Refunds will be made on the basis of notification in writing by the student to MGTD Pirii. Each case will be individually assessed to determine a refund of course fees according to modules/units not affected by the amendment.

MGTD Pirii will refund any monies due to the student’s nominated bank account or to a person nominated by the student.

Any complaints or appeals concerning the final amount to be refunded to the student may be taken up through MGTD Pirii complaints and appeal process.
