MGTD Pirii shall maintain registration to deliver nationally recognised training, by meeting the Standards for Registered Training Organisations 2015. Standards within the company will meet the requirements of the relevant Training Packages or accredited courses which will be developed in consultation with industry stakeholders.

MGTD Pirii quality assurance through its management system and governance policy will meet the standards required by the above standards. In addition MGTD Pirii Management Systems shall meet the requirements of ISO9001 Quality Management Systems Standards.

Our pledge is to always:

- Maintain minimum standards of quality within all of our training and support materials, our assessment methods and operations
- A qualification issued by MGTD Pirii (RTO88194) is a meaningful qualification demonstrating the competency of the holder and that they have truly met the national standards for the issue of that qualification
- We will never compromise the quality of our training and assessment by offering sub-standard service
- Our focus is on quality training and we will never actively support any activity that seeks to undercut and/or devalue the Australian Vocational Education and Training Industry by offering sub-standard training and assessment products or qualifications at unsustainable prices

The MGTD Pirii quality assurance will give to clients the best service through:

- Provide training that identifies its intended audience
- Accurately identifies the units of competency and Training Package(s) to which it relates
- Accommodating and identifying any formal requirements and restrictions specified in the Training Package(s) and/or in legislation
- Practice consistent consultations with stakeholders
- Stating the purpose and training context of its recommendations
- Using language and formats that are clear and user-friendly for the intended audience
