When Recognition Matters

MASTERING THE IMPLEMENTATION AND MANAGEMENT OF AN ENVIRONMENTAL MANAGEMENT SYSTEM (EMS) BASED ON ISO 14001

SUMMARY

This five-day intensive course enables the participants to develop the necessary expertise to support an organization in implementing and managing an Environmental Management System (EMS) based on ISO 14001. Participants will also gain a thorough understanding of best practices used to implement requirements of Environmental Management System of ISO 14001. This training is consistent with the project management practices established in ISO 10006 (Quality Management Systems - Guidelines for Quality Management in Projects). This training is fully compatible with ISO 14004 (Environmental management systems -- General guidelines on principles, systems and support techniques) and ISO 10012 (Measurement management systems -- Requirements for measurement processes and measuring equipment).
### WHO SHOULD ATTEND?

- Project managers or consultants wanting to prepare and to support an organization in the implementation of an EMS
- ISO 14001 auditors who wish to fully understand the EMS implementation process
- Persons responsible for the environmental conformity in an organization
- Environmental expert advisors
- Technical experts wanting to prepare for an environmental function or for an EMS project management function

### COURSE AGENDA

<table>
<thead>
<tr>
<th>DAY 1</th>
<th>Introduction to Environmental Management System (EMS) concepts as required by ISO 14001</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Introduction to management systems and the process approach</td>
</tr>
<tr>
<td></td>
<td>Presentation of ISO 14001 structure and requirements</td>
</tr>
<tr>

LEARNING OBJECTIVES

- To gain a comprehensive understanding of the concepts, approaches, standards, methods and techniques required for the effective implementation and management of an EMS based on ISO 14001
- To understand the relationship between the components of an EMS and compliance with the other requirements
- To acquire the necessary expertise to support an organization in implementing, managing and maintaining an EMS as specified in ISO 14001
- To acquire the necessary expertise to manage a team implementing ISO 14001

EXAMINATION

The “PECB Certified ISO 14001 Lead Implementer” exam fully meets the requirements of the PECB Examination and Certification Program (ECP). The exam covers the following competence domains:

1. Domain 1: Fundamental principles and concepts in Environmental Management
   Main Objective: To ensure that the ISO 14001 Lead Implementer candidate can understand, interpret and illustrate the main Environmental Management concepts related to an Environmental Management System (EMS)

2. Domain 2: Environmental Management Best Practice based on ISO 14001
   Main Objective: To ensure that the ISO 14001 Lead Implementer candidate can understand, interpret and provide guidance on how to implement and manage Environmental Management requirements based on best practices of ISO 14001

3. Domain 3: Planning an EMS based on ISO 14001
   Main Objective: To ensure that the ISO 14001 Lead Implementer candidate can plan the implementation of an EMS in preparation for an ISO 14001 certification

4. Domain 4: Implementing an EMS based on ISO 14001
   Main Objective: To ensure that the ISO 14001 Lead Implementer candidate can implement the processes of an EMS required for an ISO 14001 certification

5. Domain 5: Performance evaluation, monitoring and measurement of an EMS based on ISO 14001
   Main Objective: To ensure that the ISO 14001 Lead Implementer candidate can evaluate, monitor and measure the performance of an EMS in the context of an ISO 14001 certification

6. Domain 6: Continual improvement of an EMS based on ISO 14001
   Main Objective: To ensure that the ISO 14001 Lead Implementer candidate can provide guidance on the continual improvement of an EMS in the context of ISO 14001

7. Domain 7: Preparation for an EMS certification audit
   Main Objective: To ensure that the ISO 14001 Lead Implementer candidate can prepare and assist an organization for the certification of an EMS against the ISO 14001 standard

- The “Certified ISO 14001 Lead Implementer” exam is available in different languages, such as English, French, Spanish and Portuguese
- Duration: 3 hours
- For more information about the exam, please visit: www.pecb.com
After successfully completing the exam, participants can apply for the credentials of PECB Certified ISO 14001 Certified Provisional Implementer, PECB Certified ISO 14001 Implementer or PECB Certified ISO 14001 Lead Implementer depending on their level of experience.

A certificate will be issued to participants who successfully pass the exam and comply with all the other requirements related to the selected credential:
